

ENGINEERED TO OUTPERFORM

ADD **17** HORSEPOWER
& **17** FT. LBS. OF TORQUE
2008-10 MITSUBISHI EVO X

With Mitsubishi's launch of the all new high performance EVO X, it's only fitting that your intake holds up to the same performance standards. AEM's EVO X induction system packs massive power gains of up to 17 horsepower and 17 ft. lbs. of torque originating from the all new stealth air box design. This additional raw power is all part of AEM's determination to provide some of the most highly engineered intakes available. AEM's 21-678C is dyno-tuned and tested to launch the full potential of your EVO X.

- Stealth airbox design with cold air inlet for added power
- Engineered and calibrated for power and strength
- Features Dryflow™ Air Filter
- High-quality couplers flex with engine vibration
- Powder coated gunmetal grey finish
- Lifetime Limited Warranty
- Street legal in most states
(Not legal for street use in CA or other states with CA emissions standards)
