 NISSAN 370Z
 3.7L V6

ELECTRONICALLY TUNED
ETI
 AIR INTAKE SYSTEMS

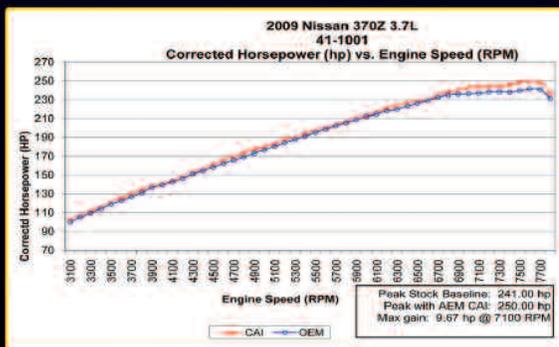

Nissan's Z series and AEM's intake system have something in common; legendary power and innovation. Once again AEM has matched Nissan's technology by introducing the all new ETI (Electronically Tuned Intake System) for the 370Z. This new electronic design prevents the need for any tube downsizing at the MAF sensor and allows the intake tube to maintain its full diameter, resulting in more air flow to the throttle body. The ETI electronically communicates with the MAF sensor to ensure factory calibration is maintained and an accurate amount of fuel is delivered. Match up your 370Z with today's technology and add real power by AEM!

#41-1001P
 MSRP - \$399.00
 JOBBER - \$319.20

- Dual Cold Air Intake Tube Design
- Replacement Water Bottle Included
- Heavy Duty 3/16" Brackets
- Double Wound Hose Clamps
- Lifetime Limited Warranty
- Polished or Gun Metal Gray Finish
- DRYFLOW™ Air Filter
 - Dryflow Synthetic Filter Media – No Oil Required
 - Thick 3D Media for increased airflow and higher capacity
 - Incredibly easy to clean

DRYFLOW
 HYBRID **KS** AIR FILTER
