ENGINEERED TO OUTPERFORM

# NEW PRODUCT

**DRYFLOW**  
HYBRID AIR FILTER

ADD **20** HORSEPOWER  
& **15** FT. LBS. OF TORQUE  
2009-10

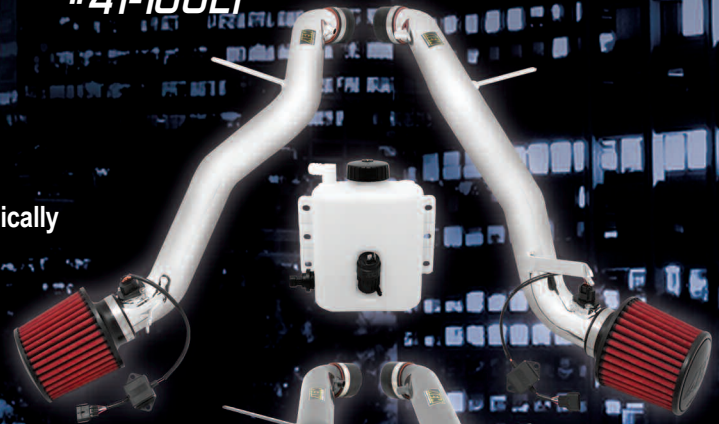

Estimated horsepower and torque gains based on specific or similar vehicle dynamometer tests. Results will vary.

**NISSAN 370Z  
NISMO 3.7L V6**

ELECTRONICALLY TUNED  
**ETI**  
AIR INTAKE SYSTEMS

Gone are the days of bolting on an intake system that just sits there and does nothing while the computer does all the work. AEM's new 41-1002P/C Electronically Tuned Intake (ETI) system work's with the Nissan 370Z's computer to produce attention getting performance. This new electronic design prevents the need for any tube downsizing at the MAF sensor and allows the intake tube to maintain its full diameter, resulting in more air flow to the throttle body. The ETI electronically communicates with the MAF sensor to ensure factory calibration is maintained and an accurate amount of fuel is delivered. Match up your 370Z with today's technology and add real power by AEM!

#41-1002P\*

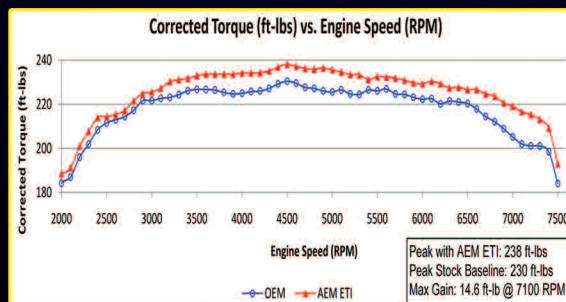

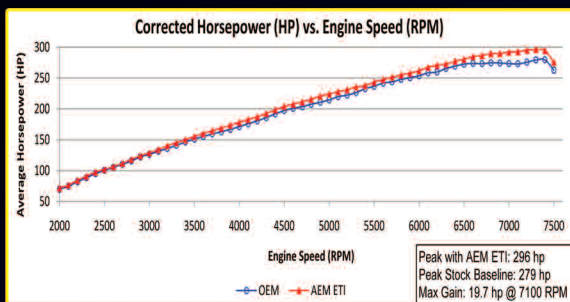

#41-1002C\*

- Dyno Proven Power Gains
- Enhanced Engine Sound
- Heavy Duty 3/16" Brackets
- Double Wound Hose Clamps
- Lifetime Limited Warranty
- Vacuum Metallized or Gun Metal Gray Finish
- DRYFLOW™ Air Filter
  - Dryflow™ Synthetic Filter Media – No Oil Required
  - Thick 3D Media for increased airflow and higher capacity
  - Incredibly easy to clean

MSRP - \$699.00

JOBBER - \$559.20
